

## UNIVERSITY NORMAL HAS COME TO CLOSE

A Most Successful Term Was Recorded for the First Year.

THE ATTENDANCE WAS GOOD

At the Close, as Evidence of Appreciation of the Institution and Its Excellent Achievements, Interesting Resolutions Were Passed.

After a most successful season of two weeks, the University Summer Normal closed Friday, and the faculty and students returned to their respective homes, feeling that their time had been well and profitably spent.

The enrollment reached eighty, which was indeed encouraging, considering that this was the first year of the institution. The enrollment represented twenty counties, and among the student body were principals and their assistants of a number of the leading high schools of the State.

Just prior to the disbandment of the institution, the following resolutions were adopted:

"Whereas, we, the pupils of the University Summer School, feeling that we have derived both great pleasure and great good from our attendance upon the exercises thereof, and desiring to give expression to our appreciation of these benefits, have this day caused to be prepared, and do hereby adopt as our unanimous sentiments, the following resolutions:

"Be it Resolved, 1. That we extend our thanks to the Legislature of the State of Florida, whose interest in the better preparation of teachers, as expressed in the appropriation for the purpose of maintaining summer training schools, is deserving of especial and unstinted commendation.

"2. That we heartily thank the State Board of Education for their determination, notwithstanding the confusion into which the educational affairs of the State had been thrown, to have the summer school carried on; and especially do we thank them for the very able and efficient faculty, their interest in public education and their approved wisdom prompting them to select and place in charge of the same.

"3. That our thanks be extended to Hon. W. M. Holloway for the interest he has manifested in the establishment and success of the University Normal. That we express our entire approbation of the principal he has assigned with regard to the several grades of certificates, believing that in his adherence he will build up a system of education second to none in the country. That we pledge him our full and hearty co-operation in all matters tending to the betterment of our school system.

"4. That to the Principal, Dr. L. W. Bucholtz, and his exceptionally able faculty, W. F. Yeum, A. T. Williams, H. Himes, G. M. Lynch, W. L. Floyd, A. W. Jackson, Mrs. J. B. Johnston and Miss Rowena Longmire, we are exceedingly grateful for the unflinching interest they have manifested in our welfare and advancement, and for their unflinching kindness and consideration that has made the school to us as thoroughly enjoyable as helpful. To their untiring efforts is due the fact that this, the first session of the University Summer School, has, though starting out under such great disadvantages and difficulties, been such a triumphant success.

"5. That we are deeply indebted and profoundly grateful to the Board of Trade and citizens generally of the progressive and enterprising city of Gainesville—our new University City—for their thoughtful kindness and generosity in providing for us comfortable accommodations at a minimum of cost and that we hereby express to them our sincere thanks and appreciation. We are witnesses to the fact that Gainesville more than deserves the reputation she has won both for her educational spirit and generosity.

"6. That we extend to Mrs. Taylor,

# Made in the Golden Sunlight

It is conceded by the highest authorities that the soda cracker contains the life-giving elements of wheat in the best proportions.

This being so, then **Uneeda Biscuit** must at once take first place as the food of the world—a soda cracker, but such a soda cracker! Made by exact science in sunny bakeries so light, bright and clean, that they are a revelation. The flour is tested; the purity of the water is absolutely assured; the very air is filtered,—why even the temperature and moisture of the atmosphere is accurately regulated. The sponge is kneaded by polished paddles, not by hand. Indeed, **Uneeda Biscuit** are only touched once, and then by a pretty girl, from the time the flour leaves the bag until the beautiful package is placed on your table.

You ask why all this work, all this care in the making of a soda cracker? Because the soda cracker is the best of all food and **Uneeda Biscuit** is the most wonderful of all soda crackers. And with all of it the price is only 5¢ a package.

Don't forget

"8. That we thank, also, The Gainesville Daily Sun for the kindly interest it has manifested in the success of our school.

### Are You Engaged?

Engaged people should remember that, after marriage, many quarrels can be avoided by keeping their digestions in good condition with Electric Bitters. S. A. Brown of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once and finally made her entirely well. She is now strong and healthy." Sold at all drug stores and guaranteed, at 50c a bottle.

### Board of Trade Folder.

"What? Where? When? How?" is the catchy title of a neat folder advertising Gainesville and the Winter Bible Conference and Chautauqua. These will be distributed throughout the North and West, and are destined to attract many new-comers here during the coming winter.
